### 2017 Sprague Lake Fishing Forecast

Sprague Lake has some of the best Rainbow trout fishing in the Pacific Northwest. Expect fantastic Rainbow trout fishing again this year. Last year, **5 lb Rainbows** were caught with lots of them in the 2-5 lb range. In the last few years, **7lb Rainbows** have been caught. See our **Facebook** photos.

About **369,000 Steelhead** were stocked in 2014, and we expect them to be up to **4-6 lbs** this year. Last year, **Steelhead** were caught from **4 lb** to over **5 lb**. Steelhead are identified by a scared over clipped adipose fin. In lakes, they are still part of the trout limit, and you do not need a steelhead punch card.

Last year, **5.5 lb Large Mouth Bass** were caught and released, along with several in the **3-4 lb** range. This year should offer some great fun for the Bass fishermen.

There should be several thousand Channel Catfish to be caught from **3 lb** to over **20 lb**.

In 2012, a **16" Bullhead Catfish** was caught. So, searching for these could be productive.
